SUMMARY

CRM & Lifecycle Marketing Specialist with 8+ years structuring end-to-end relationship journeys, multichannel automations and advanced segmentation. Skilled in base management, Lead Scoring, defining SLAs between Marketing and Sales and monitoring health metrics (LTV, Churn, NRR) on Power BI dashboards. I operate complex stacks with n8n, Make and Zapier to ensure integration and data quality across the funnel.

SKILLS

- Base management and segmentation:** organization, data quality, advanced segmentation.
- Lifecycle journeys:** relationship flows for lead, active customer and post-sales, focused on retention and LTV.
- Multichannel automation:** RD Station, Mautic, Mailchimp, SendPulse (email, WhatsApp, push, SMS).
- Data orchestration:** integrating stacks via APIs and webhooks with n8n, Make and Zapier.
- Engagement intelligence:** behavioral Lead Scoring, targeted nurturing, retention, cross-sell and upsell.
- Metrics and dashboards:** open rate, CTR, conversion, Churn, LTV and recurrence via Power BI, GA4 and Google Analytics.
- Marketing/CS/Sales alignment:** handoff SLAs, campaign governance and process QA.
- Applied AI:** Claude (segment analysis), Perplexity (benchmarks), ChatGPT.

EXPERIENCE

Fênix Educação · CRM & Lifecycle Marketing Specialist

Jul 2022 to present · Full-time · São Paulo, Brazil · Hybrid

- ▶ Built and optimized lifecycle journeys for acquisition, onboarding and retention on a 50K+ lead base, using behavioral Lead Scoring and targeted nurturing, resulting in 20% growth in enrollment volume.
- ▶ Inherited a customer base with a ~2% open rate, poor hygiene and deliverability, and grew it to ~25% by rebuilding segmentation, hygiene and cadence.
- ▶ Reduced unqualified leads by 30% through email automation for lead qualification and form standardization, improving data quality and MQL to SQL funnel efficiency, with SLAs defined between Marketing and Commercial.
- ▶ Automated multichannel flows (email, WhatsApp, push, SMS) via Mautic and RD Station, plus lead capture, distribution, communication, AI and reporting workflows via n8n, Make and Zapier.
- ▶ Increased average email CTR by 35% and built capture, engagement and conversion dashboards in Power BI, tracking Churn, LTV and recurrence to support leadership decisions.
- ▶ Integrated generative AI into the operational flow: Claude for segment analysis and insight synthesis, Perplexity for market benchmarks.
